

HOW TO MAKE \$5,000 PER MONTH IN RESIDUAL INCOME

HOW TO MAKE \$5,000 PER MONTH

- 6,945 CV volume per WEEK x 18% = \$1,250 per week in income = \$5,000 per month
- 6,945 CV volume per WEEK = **99** ACTIVE Brand Partners with 70 CV EACH per WEEK.
This must be done on BOTH Left and Right Side
- 99 Brand Partners x 4 weeks = **396** TOTAL Brand Partners (ACTIVE) on EACH SIDE
(**DOES NOT** all need to be in your enrollment tree)

Total 396 Brand Partners on the LEFT and 396 Brand Partners on the RIGHT at 70 CV EACH = \$5,000 per month

***If everyone had **100CV** order instead then you would only need **277** Brand Partners on EACH SIDE in order to make \$5,000 per month

This document was created to examine the effect of different scenarios of building a sales team and represents theoretical potential and perfect duplication of the compensation plan. It is not created to promote any particular organization and is not representative of the income, if any, that can be earned through this opportunity. Individual results may vary depending upon one's skill, leadership ability and effort. The primary source of income of a typical participant in the Compensation Plan (the "Plan") is from compensation on personal and downline sales of products and/or services and takes a sincere effort. Personal earnings will vary. The amounts shown are before expenses incurred by the distributors in the operation of their business and do not include retail markup income.
